

2. BIOECONOMY CONGRESS

BADEN-WÜRTTEMBERG

September 12-13, 2017
Stuttgart-Hohenheim, Germany

Hosts:

UNIVERSITY OF HOHENHEIM

Baden-Württemberg
MINISTRY OF SCIENCE, RESEARCH AND THE ARTS

SAVE THE DATE

Invitation to 2nd International Bioeconomy Congress

What?

Interdisciplinary meeting dedicated to systemic approaches of bioeconomy

Who?

Experts from research and industry and stakeholders

The aim of the conference will be to discuss innovative products, processes and regional concepts that use biomass instead of fossil resources and contribute to both climate goals and global food security. These include technological innovations as well as careful evaluation of environmental, climate and societal impacts. Basic research will be covered in addition to implementation strategies for markets and society in order to develop future bioeconomy scenarios.

Call for abstracts is now open

2nd International Bioeconomy Congress on September 12-13, 2017

We are looking for contributions on the following topics:

- Sustainable biomass supply
- Food and feed – New sources, products, technology and applications
- Value chains for new materials, chemicals and fuels
- Substrates, technologies and products in the biogas value chain
- Integration of feedstock and processes
- Bioeconomy and the environment
- Concepts for measuring and modelling the sustainability of bio-based materials
- Societal issues of bioeconomy
